1989: The World Wide Web was invented. The Berlin Wall came down. The first episode of The Simpsons aired. And, in 1989, Governor William O'Neill co-founded "Drugs Don't Work" as a public-private partnership dedicated to leveraging business and government resources to help Connecticut's youth. While the world has changed in the last 35 years, the mission of The Governor's Prevention Partnership has not. Today, prevention is more important than ever. The mental health crisis caused by COVID-19, combined with the rise of dangerous substances like fentanyl and other opioids, has created the perfect storm of risks for Connecticut's young people.

During the last 35 years, our work has expanded access to prevention and mentoring services to as many young people as possible. This task is large, but, with enormous support from Connecticut's business community, federal and state delegations, and residents, we are poised for the next 35 years.

Thank you for your commitment to Connecticut's Youth!

Warmly,

Kelly Juleson,
Co-President and
Chief External Affairs
Officer

Roland Harmon,
Co-President and
Chief Program and
Administrative Officer

The net proceeds from this event will directly support the operations of The Governor's Prevention Partnership and our ongoing efforts to build the capacity and effectiveness of prevention and mentoring programs in Connecticut.
